

# HOW THE AIRPORT WILL TAKE SHAPE

Total capacity  
**2 terminals**

**2 runways** with  
a capacity of 7 crore  
passengers annually

## PHASE 1

To be operational by **Oct 2024**, with a 38.5m-high ATC tower, one runway and a terminal that can handle 1.2 crore passengers annually. Over the next 37 years, the airport will see a three-phase growth, depending on the traffic

## PHASE 2

Terminal 1 will be expanded to handle an additional 1.8 crore passengers, taking its capacity to 3 crore annually

## PHASE 3

Work to begin on second runway and Terminal 2 that can handle 2 crore passengers annually

## PHASE 4

Terminal 2 will be expanded to handle 4 crore passengers in a year

➤ Terminal 1 and Terminal 2 will be inter-connected for seamless transfers

➤ UP government wants to eventually have 6 runways at Noida airport

➤ Forecourts for both terminals will have direct access to a single ground transportation centre

**PASSENGER  
CAPACITY GROWTH**  
(per annum)

**PHASE 1**  
**1.2 CRORE**

**PHASE 2**

**3 CRORE**

**PHASE 3**  
**5 CRORE**

**7 CRORE**

**PHASE 4**

➤ Will have tunnels to access aircraft parking and logistics area in the third and fourth phase of expansion
