

## Trillion dollar economy: Uttar Pradesh zeroes in on consultancy firm

TNN | Jul 8, 2022, 05:15 AM IST

LUCKNOW: In what would be the first major step towards realization of Chief Minister Yogi Adityanath's dream to transform Uttar Pradesh into a trillion-dollar economy, the state government, after a series of presentations and brainstorming sessions, has zeroed-in on a consultancy firm for chalking out a plan and ensuring its execution.

The management consultancy group's plan to take UP to one-trillion economy in the next five years was minutely looked at by top officials who were unanimous in selecting it. Sources said the group also made a presentation before the chief minister on Wednesday in the presence of chief secretary DS Mishra, ACS to CM SP Goyal and nodal officer for one-trillion economy Alok Kumar among others.

The consultancy firm has its headquarters in the United Kingdom, sources said, while refusing to share its name at this stage. The group made a very detailed presentation on how to transform the state into a trillion-dollar economy and has drafted weekly, fortnightly, monthly, and six-monthly plans, sources said.
