

Deloitte India to help Uttar Pradesh achieve USD 1 trillion target

TNN | Jul 20, 2022, 04.24 AM IST

LUCKNOW: The state Cabinet on Tuesday approved a proposal to appoint Deloitte India as the consultant to work with the government for making UP a USD 1 trillion economy. TOI was the first to report on July 8 that the government had finalised a consultant for the job.

To take the state's economy to USD 1 trillion, the government is preparing sector-wise plans in line with Prime Minister Narendra Modi's goal to make India a USD 5 trillion economy. Chief Minister Yogi Adityanath has said that UP will have a crucial role to play in this scheme and therefore should work towards improving its own economy to at least USD 1 trillion.

Looking at the scope of work, a high-powered committee, headed by the CM, had proposed that a consultant be appointed. A senior official said

that the contract with the company would be signed by July 31.
