Lucknow will be most beautiful city under CM Yogi Adityanath, says Rajnath Singh

TNN | Mar 19, 2023, 05.07 AM IST

LUCKNOW: Defence minister Rajnath Singh on Saturday said that the credit for the development of Lucknow and Mohanlalganj went solely to CM Yogi Adityanath as he implemented central schemes with sincerity and interest.

"Yogiji has handled this responsibility with alacrity. You are painted in the colours of Holi and Lucknow is seen painted in the colours of development", Singh remarked during the inauguration and stone laying of 352 development projects worth Rs 1,450 crore. Rajnath said that Lucknow would be the most beautiful city under the leadership of CM Yogi. He said: "Today is an important day for UP, as Yogi Adityanath is completing six years as CM today. There was no CM in UP for such a long time."

He said: "Yogiji has broken the record of Dr Sampurnanandji by becoming the chief minister of UP for the longest time."

Rajnath said that law and order is the first condition and oxygen for development and today people not only inside UP but across the country and the world are aware of the improved law and order situation in the state under the leadership of CM Yogi.

Singh said that one day he saw a heading 'Ab Tak 63' on a news portal, which referred to killing of 63 dreaded criminals in police encounters. "The way the cleaning is being carried out in UP, I won't be surprised if the

number goes to 100, if the culprits do not reform. Work on realising Yogi Adityanath's dream of making UP a one trillion dollar economy is going on fast. Several schemes including roads, sewer plant, service road etc are being inaugurated and foundation stones are being laid. This is possible because of the sensitivity of the PM and the understanding of Yogiji", he said.

He said so far nine flyovers have been built, three are under construction and five new flyovers have been approved. Lucknow City and Charbagh Railway Station have been selected under Amrit Bharat Scheme.
