Tata Power has announced a collaboration with the Ayodhya Development Authority, to accelerate the growth of electric vehicle infrastructure of the holy city of Uttar Pradesh. Tata Power will set up EV charging points in public parkings and other key locations such as Guptar Ghat. As the country moves towards faster EV adoption, there is a need for better EV charging infrastructure in Ayodhya and this collaboration will address that need. The official Memorandum of Understanding (MoU) signing ceremony took place in Ayodhya on June 28.
