CM addresses the convocation ceremony of IIIT-L on Tuesday

### Guv stresses on holistic education

**Lucknow:** Governor Anandiben Patel said this day is not only important for the students receiving degrees but also for their parents, teachers, and employees of the institute. Highlighting the importance of holistic education in this technological era, Patel said, "Academic knowledge, holistic approach, critical research, thinking, emotional intelligence and development of effective communication skills are essential to foster innovation and grow at the global level. Holistic education is the key to nurture not only the technical skill but creativity too." She said multidisciplinary curriculum offered by IIIT-L is a seamless blend of technology and management, making the students dynamic & employable.

immensely helpful for people residing in rural and remote areas.

**Lucknow:** Insisting that Uttar Pradesh is fast emerging as a data centre hub in the country, Chief Minister Yogi Adityanath on Tuesday said that the state has received investment proposals of Rs 40 lakh crore, including several proposals related to the development of semiconductor manufacturing units and electronics manufacturing during the UPGIS 2023.

Addressing the convocation ceremony of the Indian Institute of Information Technology, Lucknow, the CM advised the youths to consider a career in this thriving sector.

He said: "India is fast emerging as a big economy globally. Prime Minister Narendra Modi has made a commitment to make India a \$ 5 trillion economy by 2027. In line with this goal, Uttar Pradesh is also progressing towards becoming a \$ 1 trillion-dollar economy."

CM Yogi remarked further, "In the last nine and a half years, India has explored possibilities for its youth energy. The result is that the image of the country has changed in every field."

He stated that achieving the goals of 'Ease of Doing Business' and 'Ease of Living' has become much easier with technology and digitization.

Emphasizing on the importance of Artificial Intelligence (AI), CM Yogi said that the AI technology can also be used to develop digital hospitals, which can be
