Lucknow, December 21 (TNA) In view of the enormous investor interest and establishment of industrial units worth lakhs of crores of rupees investment as a result of industry-friendly policies of the UP government, Chief Minister, Yogi Adityanath has issued directions to further improve the industry ecosystem and build a robust logistics infrastructure in the state, an official said on Monday.

Consequently, the State government has nominated Additional Chief Secretary, Infrastructure & Industrial Development, Alok Kumar as State Nodal officer for developing the integrated state logistics plan aimed at overall development of logistics sector.

Kumar will head a newly created State Logistics Cell to function in sync with national logistics division for the development of supply chains and warehousing facilities for industries.

State government departments like Planning, Transport, Civil Aviation, Revenue, PWD, Export Promotion Bureau, U.P. Expressways Industrial Development Authority (UPEIDA) will be the key members on board, and nodal officers from Central agencies like National Highways Authority of India (NHAI), Airports Authority of India (AAI), Inland Waterways Authority of India (IWAI), etc. will be special invitees to the cell.
