

Providing Connectivity, Improving Lives

UTTAR PRADESH BECOMES THE STATE OF EXPRESSWAYS

Earlier, it was said that if you notice potholed roads, just think that UP has come. Whenever the darkness starts, just think that you have entered UP. We broke all those stereotypes. We have constructed four-lane highways and local roads as well. Electricity supply is also uninterrupted in most places.

-Yogi Adityanath,
Chief Minister of UP

Uttar Pradesh presently stands with a large number of expressways and all of them lead to economic momentum, prosperity and improved connectivity for the region

Over the last few years, Uttar Pradesh government has built an extensive network of expressways in the state, paving the way for better connectivity and thereby boosting the economy

EXPRESSWAYS TO THE FUTURE

Witness to a new era, Uttar Pradesh has emerged as the land of expressways. The state has been the first to build expressways and opening roads for industrial development, agriculture and entrepreneurship projects. That paving the way for the state's economic growth and progress. UP has managed to build a network of expressways that is a pioneer in several key areas of progress and development, and the project is set up as a

In a span of 4.5 years, the Uttar Pradesh administration has been successful in laying out an elaborate network of high quality expressways, many of which are greenfield projects and are on the precipice of becoming thriving centres of economic and industrial corridors.

Understanding that the state of Uttar Pradesh is a major economic and industrial hub, the government has been successful in laying out an elaborate network of high quality expressways, many of which are greenfield projects and are on the precipice of becoming thriving centres of economic and industrial corridors.

main. With the launch of the expressway project, the state has been successful in laying out an elaborate network of high quality expressways, many of which are greenfield projects and are on the precipice of becoming thriving centres of economic and industrial corridors.

CONCRETE BEARS CENTRES OF PROGRESS

The state has been successful in laying out an elaborate network of high quality expressways, many of which are greenfield projects and are on the precipice of becoming thriving centres of economic and industrial corridors.

EXPRESSWAY	LENGTH
Purvanchal Expressway	341 kms

Uttar Pradesh has been successful in laying out an elaborate network of high quality expressways, many of which are greenfield projects and are on the precipice of becoming thriving centres of economic and industrial corridors.

On completion of Bundelkhand Expressway, Gorakhpur Link Expressway and Ganga Expressway, UP's share of expressway will further increase. Today, Uttar Pradesh has 18% share of operational expressways in the country. With Purvanchal Expressway, it will increase to 20%

Through the boulevards of mega expressways

UP's new network of expressways comes with the perks of technological advancements, ecological balance and economic prosperity

I am happy that the people of UP worked shoulder to shoulder to increase the potential of the country. The pace at which projects like highways, expressways and dedicated freight corridors and defense corridors are progressing in UP is a living example of that.

-Narendra Modi,
Prime Minister
