

# State to refund subsidy to buyers deprived of EV policy benefits

**Lucknow:** Those who have purchased electric vehicles after the announcement of the Electric Vehicle Policy in October last year but did not get the promised subsidies on road tax, registration etc., will now be eligible for a refund.

The UP government on Tuesday said that the policy could not be implemented due to some technical reasons but it would provide refunds to all those who purchased electric vehicles after the policy was announced. One does not need to apply for a refund and the amount will be credited to their accounts directly. TNN
