

Nandi: GIS a new chapter in industrial devpt of UP

TIMES NEWS NETWORK

Lucknow: Having received investment intents of Rs 33.5 lakh crore, which is three times the target which had been originally set by the government, industrial development minister Nand Gopal Gupta Nandi said that the concluding session of the Global Investors Summit was the beginning of a new chapter in Uttar Pradesh's journey of industrialisation.

Speaking at the valedictory session of the three-day event on Sunday, the minister said that the event proved to be a milestone in achieving Prime Minister Narendra Modi's idea of a new India, an India for which the route to success passes through UP. "This three-day event has achieved historic success. It has been extremely crucial for the state's industrialisation and economy. This has been the biggest investors meet for any state, held under the leadership of Chief Minister Yogi Adityanath," the minister said.

Nandi said that there was a clear distinction between UP of pre-2017 and that of post-2017, after BJP came to power in the state. Using the PM's mantra of 'reform, perform and transform', Nandi said that the government had worked hard to change UP's future and face.

"Where at one end we are working to preserve our heritage, we are also improving our economy. Where the Ram Temple is being made in Ayodhya, the Bundelkhand Expressway is strengthening the country's security. On one hand is the Kashi Vishwanath Corridor, on the other hand, the state is making great strides towards becoming a USD 1 trillion economy," the minister said.
