

# Tabletop airport in Chitrakoot in a year

**Surendra.Singh**  
@timesgroup.com

**Banda (UP):** The first tabletop airport of Uttar Pradesh in the Vindhya hill range of Chitrakoot will be operational in less than a year, which is

**TABLETOP AIRPORT**

bound to give a big boost to tourism and pilgrimage especially in this temple town and the entire Bundelkhand region as a whole.

‘Tabletop Airport’ is an airport located and built on top of a plateau or hilly surface, with one or both ends of

the runway overlooking a drop.

Chitrakoot ADM KB Singh told TOI that “currently, the work on approach roads is going on at the airport construction site and it will take some months to finish that work”. There are some reports that PM Narendra Modi, who has been pushing the Yogi Adityanath-led UP government to give a special impetus on the development of Bundelkhand region that was earlier neglected for decades by earlier governments, may inaugurate the Rs 146.5-crore airport project once it is ready. With work going at a fast pace, it is likely that the airport project will be completed before the next General Election in 2024. Chitrakoot holds great importance among Hindu pilgrims.
