

Portal to guide entrepreneurs on wine prodn

Lucknow: To attract entrepreneurs to wine manufacturing, the excise department has launched a portal on which tips related to fruit wine production will be provided.

The portal was launched with the support of All India Wine Producers' Association. Officials said that the content on the page would be updated to create roadmap for establishment and sustained development of wine industry in UP.

They said the state government had come up with a dedicated policy on wine production and was offering incentives to entrepreneurs who produce wine through locally sourced fruits. "No duty will be levied on such wine production," an officer said. TNN
