

# CM: Lucknow-Kanpur Greenfield Expressway to be completed soon

► Continued from P 1

With this, job guarantee to nearly one crore youth has also been ensured. The process of waterways authority is being taken forward. It is being considered to link Kanpur with a waterway facility,” said the CM further adding “the first waterway has been built from Haldia to Varanasi and is now heading towards Prayagraj and will extend further till Kanpur.”

“The double-engine government is working at double speed,” he said, adding, “The cities where air connectivity has improved in UP, new ventures have come there. The double-engine government is working at double speed. As a result, Lucknow-Kanpur Green Field Expressway will also be ready soon. All these things have been possible because of the people’s representatives here,” he said. Yogi said that the whole world has seen India changing in the last nine years under the able leadership of Prime Minister Narendra Modi. The whole of India is taking advantage of it. “Similarly, Uttar Pradesh has benefited in almost every field as far as development is

## READY FOR TAKE-OFF

Salient features of the new terminal building:

concerned,” he said.

The CM said, “Before 2017, Kanpur was known for closed industries, besides there were allegations against Kanpur of polluting the sacred river Ganga. The 14 crore liters of polluted water that was falling from Sisamau nullah into the Ganga, was tapped and

converted into a selfie point,” the CM said, adding, “Even though Lal Imli Mill could not run, the PM established the Defence Corridor in a new mode and brought back the old glory of the city. Today, many industries of defence production are in queue in Kanpur.”
