UP Govt's vision: Trillion-Dollar economy via diverse sectors

🕒 21 Aug 2023 ✍️ CW Team

The Uttar Pradesh government, under the leadership of Chief Minister Yogi Adityanath, is orchestrating a sweeping transformation aimed at propelling the state into a trillion-dollar economy. The strategic blueprint hinges on nine pivotal components, ranging from agri-tech advancement to urbanisation and sustainable tourism. By robustly fostering these facets, the government aspires not only to elevate Uttar Pradesh's stature within the nation but also to carve a distinctive place on the international economic map.

In a recent dialogue between the Chief Secretary and representatives of the World Bank, the roadmap to burgeon Uttar Pradesh into a trillion-dollar economy was presented. The strategy and forthcoming plans were expounded during the session, accentuating the nine core focus areas that will be instrumental in this ambitious endeavour.

- 1. Agriculture Technology and Infrastructure:** Aiming to establish the state as the nation's food hub, strategies encompass creating a super app, promoting agri-tech startups, boosting dairy Farmer Producer Organizations (FPOs), and endorsing sustainable Gaushala models. A poultry production cluster is also envisaged.
- 2. World-Class Industrial Infrastructure:** Envisaging four special investment regions, a GIS-based land bank, logistical hubs, and multi-modal connectivity. Dry ports and raw material banks will be integral to the framework.
- 3. MSMEs and Emerging Technology:** Aiming to harness the potential of the MSME sector, strategies involve industrial park development, Pledge parks, ODOP (One District One Product) initiatives, and promoting these ventures through e-commerce platforms.
- 4. Sunrise Sectors:** Focus on nascent domains like semiconductors/chips, aerospace and defence, green energy, clean mobility, and drone technology, with a keen emphasis on encouraging startups.
- 5. Emerging Tech Clusters:** District-specific technology niches such as AI City, Drones and Robotics, Engineering R&D, and Emerging Tech and Data Center Hub will be cultivated.
- 6. Tourism and Spiritual Tourism:** Designating special tourism investment zones, enhancing tourist destinations, digitising tourism assets and routes.
- 7. Urbanisation and Solar Parks:** Accelerating urbanisation with city beautification, constructing townships, improving water and waste management infrastructure, and establishing solar parks.
- 8. Clean Power and Education Hub:** Modernising distribution infrastructure, developing green energy transmission corridors and solar parks. Furthermore, aiming to be an educational hub with education townships and skill development hubs.
- 9. Model Schools and Skill Development:** Establishing over 5000 model schools, focusing on skill development and creating a mission-based Skill Hub.

Chief Minister Yogi Adityanath's visionary strategies underscore Uttar Pradesh's determination to flourish as a pivotal economic engine, fostering growth, innovation, and global competitiveness.
