Uttar Pradesh is home to India's youngest generation, which will help investors to further their business, said Chief Minister Yogi Adityanath, while inviting the various companies that took part in the MotoGP event to invest in the state. He was speaking at a business conclave with the representatives of the companies.

"Uttar Pradesh is a state with possibilities. These possibilities are in infrastructure, road connectivity, metro sector, air connectivity, waterways and logistics. Uttar Pradesh is moving forward as an excellent destination for investment within the country," said the CM at Invest UP Conclave Hall, Buddh International Circuit, Greater Noida.

"Uttar Pradesh is not only a big market for events like MotoGP, but it is also home to India's youngest generation, which will be an opportunity for you to further your investment," he added. He said that the government is putting its all efforts to organise events like MotoGP.

"More than one lakh tickets have been sold for MotoGP 2023. The MotoGP race event is a centre of attraction for the global automobile industry. The venue area of this event is a junction of two important freight corridors — India-Eastern and Western Dedicated Freight Corridor. Along with this, the state government is constructing an international airport in collaboration with Zurich Airport International," said Yogi Adityanath.

The CM said that the Inland Waterway and Atal Industrial Infrastructure mission will aid the investors.

He also highlighted the state's single-window portal for investors, Nivesh Sarathi, through which the state is monitoring Memorandum of Understandings (MOUs) of investors. "Nivesh Mitra is the largest portal within the country. It provides more than 400 services on one platform, where investors' problems are resolved. Online incentive portal for investors has been developed, so that the investor does not have to wander anywhere for incentives. 25 sectoral policies for different sectors are being implemented effectively," he said.
