Laxmi Narayan Chaudhary, the minister for sugarcane development and sugar industry, announced at the Confederation of Indian Industry's Sugartech conference that Uttar Pradesh's ethanol production capacity is presently estimated at two billion litres per year. He mentioned that this capacity is nearly eight times greater than the 240 million litres per year capacity five years ago. The minister stated that, with this remarkable growth in capacity, Uttar Pradesh was on track to become the leading ethanol producer in the country. He also noted that the state's sugar industry had surpassed a value of Rs 120 billion. Furthermore, he predicted that the state's ethanol capacity would reach 2.25 billion litres per annum within a few years. He emphasised the substantial support received from the industry in terms of investments in plants, technology, and the expansion of cultivation areas over the past six years.

DS Mishra, Chief Secretary, underscored the significance of the sugarcane sector in Uttar Pradesh's goal to achieve a \$ 1 trillion economy. He described the sugar sector as an exemplary illustration of a circular economy that provides employment opportunities to over 4.5 million families connected to the sugarcane sector in Uttar Pradesh. This includes activities such as sugar production, ethanol capacity is nearly eight times greater than the 240 million litres per year capacity five years ago.
