**Lucknow:** The state government is planning to hold the groundbreaking ceremony for projects finalised during the 2023 Global Investors Summit before the announcement of the Lok Sabha election schedule.

Sources said that the event is likely to take place by mid-February after the government and administration is free from the consecration ceremony of Ram Temple in Ayodhya.

Chief Minister Yogi Adityanath had set the target for grounding projects worth Rs 10 lakh crore for which projects worth Rs 8.25 lakh crore have already been lined up and it is expected that the target would be met by the time the event is organised.
