Common actionable has been suggested during the meeting for all concerned Departments for PM Gati Shakti NMP.

- State Departments to integrate, verify and update the data on PM Gati Shakti Portal on regular basis in coordination with BISAG-N & RSAC – UP.
- Departments must ensure completeness & correctness of relevant layers. Each Department needs to certify (in-writing) the completeness and correctness of its uploaded data after due verification of the State Portal.
- Department should start using the portal for decision making, planning and execution of the projects.
- Department should identify Additional layers for uploading on the portal.
- PM Gati Shakti portal will be used by departments for decision making, planning and execution related to projects.
- Department should coordinate with BISAG-N & RSAC for making of any application/tools for the project planning purposes. Application/tools will allow/helps departments in effective decision making through PM Gati Shakti Portal.

The way forward for PM Gati Shakti in Uttar Pradesh was discussed, where the departments were requested to integrate the relevant layers on the PM Gati Shakti portal at the earliest and start working on a separate layer for 2024 to include upcoming and proposed projects. It was emphasized that all projects should be planned through the PM Gati Shakti NMP Portal and important infrastructure layers should be taken into consideration during project planning. (Action: All Deptts. & RSAC)

The meeting ended with thanks.
