PMI Electro Mobility, a leading electric bus manufacturer has delivered 50 e-buses to Uttar Pradesh, which will ply in Ayodhya. The buses were flagged off by Chief Minister of Uttar Pradesh, Yogi Adityanath as part of the zero-carbon public mobility initiative from Ayodhyadham bus stand.

These e-buses manufactured by PMI Electro Mobility will ply within the city limits and facilitate visiting dignitaries, pilgrims, and local citizens with the sustainable, and comfortable modes of public transport complementing the green transport mission at Ayodhya to reduce air pollution.

PMI Electro Mobility has over 700 e-buses running across Uttar Pradesh which it says will reduce the carbon footprint by 11,036 tonnes and save 1,62,06,750 litres of [diesel](#).

Dr. Aanchal Jain, CEO, PMI Electro Mobility Solutions said, "It is indeed a moment of great pride for PMI Electro Mobility to have our e-buses to ply in the holy city of Ayodhya and be a part of our Prime Minister [Narendra Modi's](#) vision to be a net-zero nation by 2070."

"We look forward to fortify the state's ambitious goals of electrifying the public transport by delivering additional e-buses in all major cities in the state in times to come," added Dr. Jain.
