**Meerut:** National Capital Region Transport Corporation (NCRTC) on Saturday unveiled a model to boost revenue at the Rapid Rail Transit System (RRTS) by allowing short-term rentals of premises and trains for shooting films, documentaries and TV commercials.

Puneet Vats, chief public relations officer of NCRTC, which is the nodal agency entrusted with the task of completing the Rs 30,270 crore 82-

km-long railway infrastructural project between Delhi and Meerut, said, "With the arrival of OTT platforms and the expanding digital landscape, there is a growing trend of using public transport systems, particularly metro rail, as cinematic backdrops. RRTS's internationally acclaimed infrastructure coupled with contemporary aesthetics and world-class facilities make it an optimal choice for filmmakers seeking modern and visually captivating settings."
