**KANPUR:** The Adani Defence and Aerospace on Monday started production in ammunition manufacturing complex in Kanpur node of the Uttar Pradesh Defence Corridor.

In a landmark achievement for the Uttar Pradesh Defence Corridor, this facility is the first of its kind in the private sector in the country.

According to the Adani group, production started in this unit, in less than 18-months from the land allocation.

“The establishment of the ammunition and missiles complexes represents a leap forward in our quest for self-reliance. With a planned investment of over Rs 3,000 crores, its impact extends far beyond the defence sector,” said Ashish Rajvanshi, CEO of Adani Defence and Aerospace.

“It will create over 4,000 jobs, with five times the multiplier effect on MSMEs and the local ecosystem benefiting from it indirectly. We are committed to ensuring that our efforts are inclusive and sustainable, fostering growth while preserving the environment for generations to come,” Rajvanshi added.

Defence and Aerospace became the first unit in the defence corridor project of the state government to start production, said Rajvanshi adding that it is South Asia's biggest ammunition manufacturer. Spread over 500 acres, the facility will manufacture 150 million rounds of small ammunition per year. And by the year 2026 and 2027, medium and large ammunition will also be manufactured in this Kanpur unit.

The facility in Kanpur is set to become one of the largest integrated ammunition manufacturing complex. It will produce high-quality small, medium and large calibre ammunition for the armed forces, paramilitary forces and police.

The facility has started rolling out small calibre ammunition,

## AMMUNITION COMPLEX

- Spread over **500** acres
- Investment plan of **Rs 3000+ crores**
