

‘UP to compete with Hyd to become hub of data centres’

‘Yogi Govt Fostering Significant Investments In IT Sector’

TIMES NEWS NETWORK

Lucknow: Positioning itself as an upcoming hub of data centres, Uttar Pradesh govt on Tuesday claimed that the state would soon be able to compete with Bengaluru and Hyderabad.

“With the aim to bring Uttar Pradesh on par with Bengaluru and Hyderabad in the field of technology, Yogi govt is fostering significant investments in the sector in the state, especially in the Data Centre Park and Artificial Intelligence. Consequently, several tech giants, such as NIDP Developers, Tata Technologies, STT Global Data Center, and Jackson Limited, are chan-

construction and operation, contingent upon demand, policy support, and feasibility.

In addition, Web Works is currently in the process of establishing a state-of-the-art data centre in Noida with a significant investment of Rs 500 crore. The project will create employment opportunities for 220 individuals.

Engineering company Jackson Group is also establishing a data centre park in the Yamuna Expressway Industrial Development Authority (YEIDA) region. This project, valued at Rs 1,560 crore, will provide employment for 250 people. The company is primarily engaged in the manufacturing and sale of diesel generator sets and solar PV modules. Jackson Group oversees four key business sectors in India, namely Power Generation and Distribution, Solar, EPC, and Defence.

Mobile manufacturing, AI projects also launched in UP

Bringing the Artificial Intelligence (AI) revolution to Uttar Pradesh, Addverb Eco-

tech is investing Rs 500 crore to set up a facility in Greater Noida to develop automated robots and material handling technologies. This project is aimed at creating employment for 2,000 individuals. Similarly, Dixon Technologies, a leading Indian multinational electronics manufacturing services company, is investing Rs 650 crore to establish an electronics/mobile

manufacturing facility in Sector-151, Noida. This project is expected to generate approximately 4,000 jobs.

Additionally, Tata Technologies is establishing nearly 150 govt ITIs with an investment of Rs 4,174 crore in Uttar Pradesh, which will generate 450 jobs. Apart from these, at least a dozen companies have made significant investments in the area.
