

2031 master plan to incorporate industrial corridor in Banda

TIMES NEWS NETWORK

Lucknow: State govt's 2031 master plan will incorporate the industrial corridor in Banda.

"With new initiatives like the establishment of BIDA, Uttar Pradesh's second industrial city after Noida, and projects such as the Lalitpur Drug Park, Bundelkhand is emerging as a hub of industrial growth. Govt is moving towards expanding Banda district of Bundelkhand under the master plan," a govt spokesperson said.

"Special emphasis is being placed on bringing industrial and development-oriented investment proposals to the forefront for development under the master plan," the spokesperson said, adding that CM Yogi has given instructions to extend the limits of the master plan till the Industrial Corridor in

Banda.

Connecting the corridor with the Bundelkhand Expressway will also be done. Additionally, concrete steps will be taken to ensure that municipal corporation transportation is not affected due to heavy traffic.

Officials claimed that under the master plan, instructions have been given to the development authorities for well-planned, balanced, and rapid development focusing on the facilities of the common people. Not only that, they have been instructed to explore new possibilities of

income so that there is no shortage of funds for development work.

Meanwhile, clusters will be developed in Banda to encourage local crafts and traditional products. Statues of great personalities will be installed in parks and squares. Keeping in view the traffic problem in the city, taxi-auto stands and street vendor zones will be decided. Additionally, multi-level parking will be built. Focusing on prosperity, happiness, and stability, local art and culture will be promoted to develop Banda as a gateway city.
