

We are making history today: Karan Adani

Lucknow: Managing director of Adani Ports and Special Economic Zone Ltd, Karan Adani on Sunday said that the new Integrated Terminal 3 at Chaudhary Charan Singh International Airport in Lucknow is a history in the making.

"Today, we are making history. This new Integrated Terminal 3 will transform CCSIA, into the Gateway to Uttar Pradesh and will also mark a celebration of pro-

gress and testament to our collective vision," he said.

Adani further lauded PM Modi's vision of transforming India into a global economic superpower and stated that government's focus on modernising infrastructure and promoting sustainable development aligns with Adani Group's mission of creating world-class airports in the country.

"Our vision for CCSIA is big and far-reaching. The master plan aims to expand the airport's capacity to ultimately serve 38 million passengers annually by 2047-48. This exponential growth is a cornerstone of our strategy to support Uttar Pradesh's aspiration to become a one-trillion-dollar economy. Through this development, we are not just build-

ing infrastructure – we are creating over 13,000 direct and indirect job opportunities, thus contributing significantly to the economic advancement of this region and the state," said Karan Adani. "From the moment travellers set foot in T3, they are greeted with Swaagat Wall, a magnificent display that captures the essence of Lucknow's skyline, leading them through an immersive journey," he said. AGENCIES
