

# Record 700-tonne cargo milestone at Lucknow airport boosts AAHL

**LUCKNOW :** International cargo operations at Chaudhary Charan Singh International Airport (Lucknow) achieved the highest-ever volume of 700 tonnes in March 2024. This has helped Adani Airport Holdings Limited (AAHL) handle an impressive one million tonnes of air cargo in the fiscal year 2023-2024, reaching a significant milestone.

A press note from AAHL stated that the company facilitated a remarkable 1,013,115 metric tonnes of cargo in 2023-24 financial year, capturing an impressive 30.1% market share. This represents a significant 7% year-on-year increase compared to the previous fiscal year, when the total cargo tonnage was 944,912 metric tonnes.

The cargo operations were driven by commodities, including automobiles, pharmaceuticals, perishables, electricals/electronics, and engineering goods. These commodities were efficiently handled across Chhatrapati Shivaji Maharaj International Airport (Mumbai), Sardar Vallabhbhai Patel International Airport (Ahmedabad), Chaudhary Charan Singh International Airport (Lucknow), Thiruvananthapuram Int'l Airport, Mangaluru International Airport, Lokpriya Gopinath Bordoloi International Airport (Guwahati), and Jaipur International Airport. In FY 2023-2024, AAHL's cargo operations were predominantly international – 65% of the cargo managed was international. **HTC**
