

# Good to see global firms being served from city: Pathak

TIMES NEWS NETWORK

**Lucknow:** “It is good to see a home-grown infotech firm offering innovative technology solutions, including Artificial Intelligence, for global customers from the city,” said deputy CM Brajesh Pathak while inaugurating the newly expanded Lucknow delivery centre of ADROSONIC in Gomtinagar on Wednesday.

“Their cutting-edge research in the rapidly evolving fields of AI/ML is going to take forward the state’s initiative to develop Lucknow into India’s centre of Artificial Intelligence expertise and innovation,” Pathak added, lauding the firm’s efforts.

Taking forward their pledge as part of UPGIS 2023, ADROSONIC, a global technology consultancy with their headquarters in Mumbai, have further expanded operations in Lucknow. The firm has established a large presence in the state as developers of innovative technology solutions, including Artificial Intelligence, for global customers.

Speaking on the occasion, Mayank, CEO and MD, ADROSONIC, shared, “AD-

Deputy CM Brajesh Pathak inaugurates the newly expanded Lucknow delivery centre of ADROSONIC in Gomtinagar on Wednesday

ROSONIC was a proud participant in UPGIS 2023, where we had the honour of signing two MoUs with the Uttar Pradesh govt. The first MoU, valued at Rs 30 crore, was dedicated to the expansion of our delivery centre in Lucknow, and the second, worth Rs 3 crore, was committed to establishing an ‘Innovation Lab’ in Lucknow. We are delighted to have successfully fulfilled our commitment under the first MoU. Our newly expanded delivery centre is now complete and ready for operation.”
