

Govt to launch dedicated portal for Mission Shakti

TIMES NEWS NETWORK

Lucknow: The state govt would soon launch a web portal dedicated to the Mission Shakti programme under which it would collate data and details on the steps taken by it to control crime against women and deal with criminals.

It would also have details of activities taken up under Mission Shakti by various departments. The portal would bring together all departments which are playing an active role in the implementation of the programme.

The portal would cater to the requirements of the home department and provide tools to analyse efforts made by various departments. The project would be

developed and managed by Uttar Pradesh Systems Corporation Limited (UPDESCO).

“The portal’s dashboard would have several features like user management based on roles, master creation, reporting, and data input modules that summarise activities, provide status updates, and allow for event uploads. It would help monitor special campaigns that are run by different departments to promote women’s safety and empowerment,” a govt spokesperson said.

The official added that the portal help track the daily activities under the scheme. “Details of events organised by various departments would, including photos and videos, would be uploaded on it,” the official

said. The software would be hosted on a Meit-Y empaneled cloud server, the official said, adding that the MIS report dashboard would feature overall analysis, department-wise reports, and other necessary reporting, including pie charts and bar charts. Users would have the option to download report data in MS Excel format. All activities would be recorded at each level, and an audit trail would be maintained.

The system would facilitate the compilation of various statistical data, including district-wise and department-wise event status and daily reports of programmes organised under special campaigns, along with details of uploaded photographs.
