Take a moment and listen

The **eUttar Pradesh Summit 2024**, set to take place on 14th November 2024 at Hyatt Regency, Lucknow is poised to be a landmark event, bringing together industry leaders, policymakers, and innovators to chart the future of IT and electronics in India. With its theme, “Powering the IT & Electronics Revolution,” the summit will focus on accelerating technological advancements, fostering digital growth, and shaping the future of electronics manufacturing in the state and beyond.

Shri Brajesh Pathak, Hon'ble Deputy Chief Minister, Government of Uttar Pradesh will grace the summit as the Chief Guest. Also, the event will feature a keynote address from Sanket Bhondve, Joint Secretary, Ministry of Electronics & Information Technology, Government of India and Dr M K Shanmuga Sundaram, Principal Secretary, Basic Education Department, Government of Uttar Pradesh. The special address will be given by Anju Sharma, Additional Chief Secretary, Agriculture & Cooperative Department, Government of Gujarat; Rabindra Narayan Behera, Member of Parliament, MP, Jajpur, Odisha & Standing Committee Member of Communication and IT; and Sunil Kumar Sharma, Hon'ble Minister of IT & Electronics, Government of Uttar Pradesh. Industry Perspective will be presented by Somesh Agrawal, Director, Legal & CS, Haier Appliances (I) Pvt Ltd.

This year's summit will delve into the key drivers of the IT and electronics sectors, with a series of insightful panel discussions covering critical topics such as:

- **India's IT Revolution and Future Vision:** Exploring the transformative journey of India's IT sector and the roadmap for its future, including the rise of new digital ecosystems, opportunities for growth, and the role of innovation in shaping a digital-first economy.
- **Impact of ICT Initiatives in Transforming Various Sectors:** Analysing how Information and Communication Technology (ICT) initiatives are driving change across industries including healthcare, education, manufacturing, and governance.
- **Sharing Policy Perspective on Electronic Manufacturing, Data Centers, Startups, Semiconductor, and GCCs:** A deep dive into India's evolving policy landscape and its impact on electronic manufacturing, the rise of data centers, startup ecosystems, and the semiconductor sector, including the emerging role of Global Capability Centers (GCCs).
- **Digital Public Services / Digital Public Infrastructure:** Fostering Trust, Accountability, and an Enhanced Citizen Experience: A discussion on the importance of strengthening digital public services and infrastructure, enhancing transparency, building trust, and improving the citizen experience through technology-driven solutions.
- **The Role of Emerging Technology in Preventing Cyber Threats:** With cyber threats becoming increasingly sophisticated, this session will explore the role of emerging technologies in securing digital assets, preventing cyber-attacks, and ensuring data privacy and security in the digital age.
- **Emerging Trends in AI and Future Vision:** A look into the future of Artificial Intelligence (AI) in India, examining the key trends shaping AI adoption, its applications in various sectors, and the potential for India to become a global leader in AI innovation.

The summit will bring together thought leaders, technologists, entrepreneurs, and government representatives to explore how Uttar Pradesh, as a rapidly growing hub for IT and electronics, can leverage its strategic position to become a key player in India's digital transformation.
