

TARGET FOR LANDBANK OF 1.5 LAKH+ ACRES: UDYAM PRADESH

With a vision to transform UP into 'Udyam Pradesh', UP government is set to build a landbank of over 1.5 lakh acres by 2027. As of September 2024, 54,000 acres of landbank has been established, and work is underway to reach 82,000 acres by the end of 2024-25

To transform Uttar Pradesh into an 'Udyam Pradesh,' the CM Yogi-led government is striving to establish a land bank of over 1.5 lakh acres by 2027. This initiative aims to secure land for industrial investment and foster development throughout the state.

- By September 2024, the government had successfully established a landbank of 54,000 acres. Of this, 30-40 % will be dedicated for industrial purposes
- Major industrial development authorities such as UPSIDA, Noida, Greater Noida, YEIDA, and GIDA are leading the acquisition of such land, which will be allocated for various industrial projects across the state
- State government is targeting the preparation of an 82,000-acre landbank by the end of the 2024-25

financial year. Following this, the plan is to build a landbank of over 1.5 lakh acres by acquiring and allocating the remaining land within the next two to three years

- Land acquisition is progressing rapidly in key industrial areas such as Noida, Greater Noida, Yamuna Expressway, Kanpur, and Lucknow

UP: PREFERRED DESTINATION FOR INVESTORS

- UP government's ongoing efforts are creating a favourable environment for investors and industrialists
- Enhanced security, improved law and order and upgraded amenities opening doors to industrial development
- Uttar Pradesh government is also actively working on various schemes and policies to attract investors to Uttar Pradesh
- UP has attracted significant investments in sectors such as information technology, manufacturing, food processing, and energy
