construction world

Ganga Expressway: The Ganga Expressway, a **594-km-long** infrastructure project connecting **Meerut to Prayagraj** in Uttar Pradesh, is nearing significant completion. With 99% of earthwork and 82% of construction progress reported in Western Uttar Pradesh, the expressway is expected to open soon.

Originally planned for earlier completion, delays due to environmental restrictions and other challenges have pushed the operational timeline to 2025. Once completed, the expressway will enhance connectivity between **eastern and western Uttar Pradesh**, reduce travel time, and boost regional economic development.

Western UP's Ganga Expressway Hits 82% Completion Mark

The Ganga Expressway project in Uttar Pradesh is nearing completion, with reports indicating that 99% of the earthwork has been completed and approximately 82% of the overall construction progress has been achieved in Western Uttar Pradesh. This ambitious infrastructure project aims to enhance connectivity while reducing travel time between Meerut and Prayagraj from about **10-11 hours to just 6-7 hours**.

Ganga Expressway Project Construction Overview

The expressway is being developed at an estimated cost of over **₹36,230 crore** and is expected to serve as a critical component in **Chief Minister Yogi Adityanath's** vision for a USD one trillion economy in Uttar Pradesh.

The project has been divided into multiple packages, with major construction contracts awarded to firms like **IRB Infrastructure** and **Adani Enterprises**. As of January 2025, the construction teams have reported substantial progress across various segments of the expressway.

Ganga Expressway Project: Strategic Importance

Traversing through **12 districts**, including **Meerut, Hapur, Bulandshahr**, and **Prayagraj**, the Ganga Expressway will not only facilitate smoother transportation but also bolster economic activities along its corridor. The expressway features several key infrastructures such as underpasses and overbridges designed to enhance connectivity with existing national highways.

Ganga Expressway: Projected Opening Date

With the completion of earthworks and ongoing construction efforts, officials are optimistic about opening the Ganga Expressway to the public by the end of January 2025. This timeline aligns with preparations for the upcoming **Maha Kumbh Mela** in early 2025, which is expected to draw millions of pilgrims and tourists to the region.

The Ganga Expressway shows how Uttar Pradesh is working hard to improve its infrastructure. Once it starts operating, it will make travel faster and create many opportunities for economic growth in the state.

FAQs

1. What is the Ganga Expressway?

Answer: The Ganga Expressway is a 594-km-long road connecting Meerut to Prayagraj in Uttar Pradesh.

2. How much progress has been made on the Ganga Expressway?

Answer: 99% of the earthwork is done, and construction in Western Uttar Pradesh is 82% complete.
