

# 'PM Gati Shakti plan strengthening logistics network of UP'

**LUCKNOW:** A high-level workshop was organised on Monday at Indira Gandhi Pratishthan for effective implementation of the National Master Plan for PM Gati Shakti Multimodal Connectivity.

Anil Kumar, minister of science and technology, chaired

the event, while the chief guest was Nand Gopal Gupta 'Nandi', minister of industrial development, export promotion, NRI and investment promotion.

Addressing the gathering, Anil Kumar said that the PM Gati Shakti Yojana is a revolutionary initiative for infrastruc-

ture and industrial development of the state. Through this scheme, implementation of projects is being expedited by integrating various departments and ministries, thereby strengthening the logistics network of the state.

On the occasion, Nandi stated

that PM Gati Shakti Yojana will reduce logistics costs in the state and provide world-class infrastructure to industries.

This will give new impetus to industrialisation in the state and increase employment opportunities.

Nandi added that the aim of the state government is to make the state the most investor-friendly state through this scheme, which will strengthen its economy.

Secretary, infrastructure and industrial development and CEO Invest UP, Abhishek Pra-

kash, addressed the workshop and made a detailed presentation on the Gati Shakti Master Plan.

He asserted that this initiative aims for seamless multimodal connectivity and holistic infrastructure planning across India, focusing on identifying infrastructure gaps and integrating data layers for better decision-making.

Uttar Pradesh has integrated over 80 data layers for effective project planning and execution, achieving remarkable progress in infrastructure and connectivity.
