

UP road connectivity, law & order impresses Rajiv Bajaj

LUCKNOW: One of India's leading industrialist, Rajiv Bajaj, has lauded the significant improvements in road connectivity and law and order in Uttar Pradesh. He also noted the increasing number of women riding two-wheelers was a strong sign of social change.

Notably, Uttar Pradesh has emerged as a major hub for the two-wheeler market in India, especially in the electric vehicle (EV) segment. In 2024, UP secured the second position after Maharashtra by selling 1,57,631

electric two-wheelers, capturing a market share of 15.74%.

Speaking in a podcast, Rajiv Bajaj said, "The growth of the two-wheeler industry in Uttar Pradesh over the past 12 months has surprised us. We had heard a lot about the excellent roads and improved law and order here. Uttar Pradesh's growth story has truly impressed us."

He added that the large number of women riding two-wheelers in the state was also an indicator of positive social transformation.
