

GNIDA initiates allotment process of 40 industrial plots

Lucknow: The Greater Noida Industrial Development Authority (GNIDA) has initiated the process to allot 40 industrial plots in key sectors, including Ecotech, Udyog Kendra, and Udyog Vihar, in Gautam Buddha Nagar, an official spokesperson said on Friday.

“These industrial plots, ranging in size from 450 to 8,000 square metres, will be available for entrepreneurs seeking to establish industrial units. The reserve price is fixed between Rs 28,600 and Rs 33,950 per square metre,” they said. Stating that a key highlight of this scheme is that applicants will be allowed to establish industrial units under 242 permitted categories, they said: “However, 27 types of industries—including distilleries, petrochemicals, and fertilisers—will be excluded, while five categories, such as dyeing and bleaching, may be permitted on a restrictive basis.”

Simultaneously, the GNIDA began bulk land allotment process for the development of a Multi-Modal Logistics Park near Dadri. Under this initiative, services such as inter-modal container terminals, cargo handling yards, mechanised warehouses, cold storage facilities, logistics terminals, customs clearance zones, freight forwarding services, and transportation hubs will be established on Plot No. 1 in Sector Kappa-2, covering an area of 174.12 acres. This strategic location enjoys proximity to Jewar Airport and connectivity to both the Eastern and Western Dedicated Freight Corridors, ensuring seamless logistics and transportation. TNN
