Uttar Pradesh govt to set up agri-export facility near Noida Airport: Chief Secretary

Lucknow, Jul 4 (PTI) With an aim to boost export of horticultural produce, the Uttar Pradesh government is planning to set up a world-class agri-export facility near the Noida International Airport in Jewar, Chief Secretary Manoj Kumar Singh said on Friday.

Speaking at the inauguration of Uttar Pradesh Mango Festival 2025 here, he stressed that the facility -- first of its kind in India -- will also help neighbouring states to export their farm and horticulture produce.

Highlighting the state's dominance in mango production, Singh said, "mango cultivation is being carried out across 3.25 lakh hectares in Uttar Pradesh, and we are currently producing about 6.15 million metric tonnes of mangoes -- making us the number one state in India in terms of production."
