Om Logistics Supply Chain, a wholly owned subsidiary of Om Logistics Ltd., has proposed an investment of ₹150 crore in Uttar Pradesh to strengthen the state's logistics infrastructure. The announcement was highlighted by Chief Minister Yogi Adityanath during his recent visit to Unnao on July 26. The proposal aims to improve regional connectivity, enhance nationwide supply chain efficiency, and support businesses with faster, more reliable logistics services.

The investment is also expected to generate new employment opportunities and promote industrial development in the region, contributing to national growth. By aligning with Uttar Pradesh's progressive vision, the company is set to play a vital role in the state's development.

With three decades of experience, Om Logistics Supply Chain has emerged as a trusted name in the industry, offering end-to-end logistics solutions. As part of its national growth strategy, the company continues to expand its network across India to meet the evolving needs of diverse industries.
