## Asks Officials To Implement UP Electronics Policy

TIMES NEWS NETWORK

**Lucknow:** Chief Minister Yogi Adityanath has directed officials to implement the Uttar Pradesh Electronics Component Manufacturing Policy-2025 to establish the state as a global electronics manufacturing hub, driving towards the goal of achieving a \$1 trillion economy. The policy is expected to boost the state's economic growth, create new opportunities, and attract significant investments in the electronics sector.

In an official meeting on Tuesday, the CM said: "The policy is designed to attract large-scale investments, boost production, and generate massive employment opportunities, further consolidating Uttar Pradesh's position as a leading player in India's rapidly growing electronics sector."

He also discussed the proposed policy prepared by the

IT and Electronics department and offered guidelines. "The electronics sector is the fastest-growing area of India's economy. Today, India is the world's second-largest mobile manufacturer, with Uttar Pradesh contributing nearly 60% of the country's output. UP must capitalise on the immense potential in this sector," he said.

Officials apprised the CM that over the past eight years, the state has made historic progress in industrial development, and now it was time for Uttar Pradesh to establish a distinct identity on the global map in electronics manufacturing.
