Lucknow: The Amausi industrial area is witnessing massive development, identified as a priority location for large-scale infrastructure upgrades with an investment of Rs 31 crore.

The UP state industrial development authority (UPSIDA) is implementing the projects, which include the construction and upgradation of roads, drains, culverts and industrial entry gates.

The area will see the development of worker and visitor-friendly amenities, including a Shramik Sewa Kendra to provide essential services for workers, a vending zone and truck lay-by areas for safe and organised parking of heavy vehicles.

A cafeteria will be established to provide affordable meals and clean public toilets. To provide accommodation for workers, dormitories will be set up for house workers and staff.

An official said that the main works in progress are the maintenance and upgradation of roads and footpaths, truck lay-byes, culverts and internal and external drainage, which will be made at a cost of Rs 12 crore. The construction of roads using FDR technology will involve an invest-

ment of Rs 6 crore. Additionally, the construction of an integrated command centre, police outpost and EV charging station will cost Rs 3.4 crore, while street furniture, signages and firefighting equipment will be provided at a cost of Rs 1.2 crore.

Projects that are planned and will be executed shortly include horticulture and landscaping worth Rs 1.5 crore, interlocking tiles for road widening at a cost of Rs 2.2 crore, construction of a new drain at Rs 2.6 crore and the construction of a new entry gate with an investment of Rs 50 lakh. UPSIDA has also finalised the selection of a contractor for implementing

annual maintenance and solid waste management work at the Amausi industrial area for Rs 1.26 crore.

UPSIDA chief executive officer Mayur Maheshwari said, "In line with the industrial vision of the UP govt, UPSIDA is swiftly executing various civil infrastructure projects in Amausi industrial area. Our objective is to provide investors with a streamlined, accessible and modern industrial ecosystem, making UP a leader in 'ease of doing business'. The successful implementation of these projects will not only boost industrial activities but also create new avenues of employment and development at the local level."
