

UPITS to highlight state as hi-tech hub

Lucknow: Special arrangements have been made by state govt to position UP as hub of advanced technology at the Uttar Pradesh International Trade Show (UPITS 2025). A govt spokesperson said that IT and electronics department would conduct live demonstration of an artificial intelligence model. A detailed action plan includes a 200-square-metre pavilion in Hall-5, designed under supervision of UP Electronics Corporation Ltd, featuring a dedicated zone for startups, equipped with a smart LED video wall and a modern curved video wall, highlighting Yogi govt's policies, achievements and milestones in technological progress. It will also feature VIP lounge for meetings, cafeteria and common visiting area.

AI model at IT and electronics department's pavilion will operate on live setup. Designed with future-ready features, it will serve as platform to demonstrate advancements in technology. It will feature a 150-square-foot anamorphic display screen for content presentation. TNN
