LUCKNOW: The Invest UP on Tuesday presented the state's manufacturing growth trajectory since 2023, outlining the progress achieved and key priorities ahead before the Industrial development minister. Industrial development minister Nand Gopal Gupta 'Nandi' chaired a high-level review meeting at Invest UP, aimed at accelerating the state's journey towards becoming a USD 1 trillion economy.

During the meeting, Gupta stressed a zero-error approach and rapid execution for maximum output, while seeking updates on survey methodology, industrial plot usage, and cluster progress. Officials said the final consolidated report will be submitted soon.

Discussions focused on strengthening factory registrations, upgrading data systems, and operationalising industrial

units. The review also covered the statewide industrial survey, land availability, industrial park development, and improving logistics connectivity.

Representatives from NOIDA, YEIDA, GNIDA and other industrial development authorities (IDA) apprised the minister about current land acquisition and project development status in their respective jurisdiction.

Gupta urged Invest UP and IDAs to enhance investor facilitation, optimise land, build infrastructure, develop NIRMAN Kshetras, and ensure efficiency, transparency, and swift decisions for manufacturing growth.
