

# 'Proposed investments aligned with state's vision'

## ►Continued from P 1

**A**nother MoU worth Rs 150 crore was signed with Yeoman for defence manufacturing and weapons system integration.

Officials said the proposed investments are aligned with the state's long-term vision of sustainable development, technology-driven governance and large-scale employment generation, while strengthening its global competitiveness.

The delegation, which included officials from the infrastructure, industry, energy and chief minister's office, also held business-to-govt meetings with several global and Indian firms, including Louis

Dreyfus Company, Uber Technologies, Automation Anywhere, PepsiCo, HCL Software, Google Cloud, Greenko and Deloitte South Asia.

A key interaction was held with Uber to explore expanded investments, mobility partnerships and the possibility of setting up a global capability centre in Noida. Uber officials highlighted that the company already operates around 1.5 lakh vehicles across more than 13 locations in UP and flagged opportunities in tourism, last-mile connectivity and innovative mobility solutions.

The delegation also met Carbon Compass founder and CEO Neeraj Agarwal to discuss climate innovation and sustainability-led growth.
