

# Talks on clean and solar energy investments will be taken up

► Continued from P 1

This trip is being seen as significant from the perspective of the state's investment diplomacy and industrial expansion," he added.

During his stay in Singapore on Feb 23, 24 and Japan on Feb 25 and 26, Yogi will meet representatives of 33 global companies to discuss new opportunities for investment, technological collaboration and industrial growth in UP.

"During his Singapore visit, the CM will meet representatives of 25 companies. Discussions with global investors such as Google and ST Telemedia Global Data Centres will focus on data center infrastructure. Talks with Japfa Group and Olam International will center on agribusiness. Logistics networks will be discussed with Mapletree Investments and AI-SATS, while clean and solar energy investments will be taken up with AVPN, GSC Greens, and EDPR Sunseap," said an official accompanying the CM on the tour.

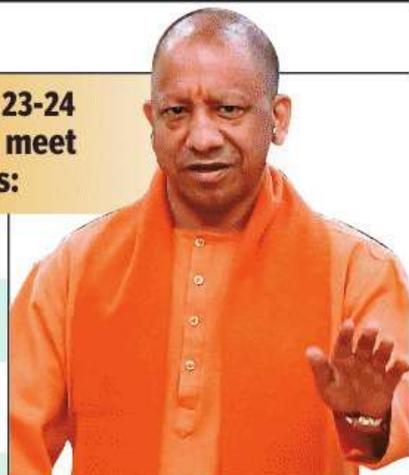

Opportunities in hospitality and theme parks will be explored with Greenfield Advisory and DreamTrust, packaging with Universal Success Enterprises, industrial parks with Sembcorp Industries, and aviation cooperation with Singapore Airlines Engineering Company. Discussions will also be held with global investment funds such as Temasek Holdings, GIC, and Blackstone Inc. regarding capital investment, and with Fullerton Financial
