

NEW WINGS FOR NOIDA

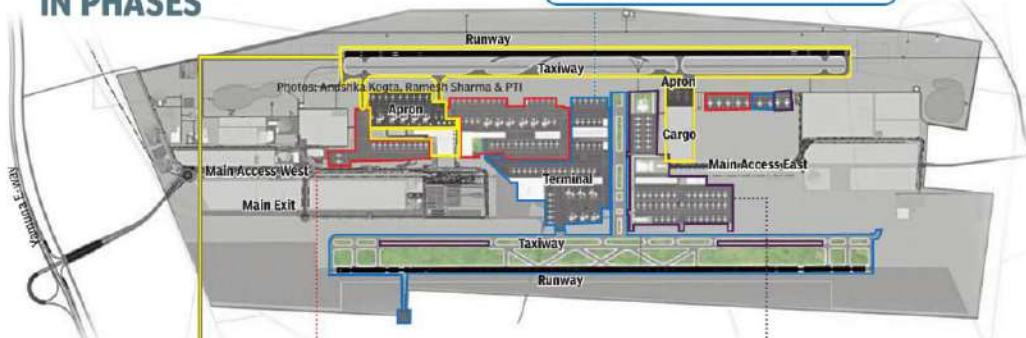

As Phase 1 of the airport is inaugurated today, here's what fliers can expect and how the airport will grow from here

The main check-in area as passengers enter to take flights, and (left) the passenger waiting area of the airport near the boarding gates

HOW AIRPORT WILL BE EXPANDED IN PHASES

Phase 1 | Now
Capacity **1.2 cr** fliers a year
Land status | Acquisition complete, rehab complete
Infra | One runway, 1 terminal building, ATC tower, VIP terminal and multi-modal cargo hub

Phase 2 | 2030 | Construction to start once passenger footfall touches 80% of 1.2 cr
Capacity **3 cr** fliers a year (+1.8 in Ph 2)
Land status | Acquisition notified, compensation complete, rehabilitation under way
Infra | T1 mirror expansion, 2nd runway, maintenance, repair, overhaul (MRO) hub

Phase 4 | 2036
Construction to start once passenger footfall touches 80% of 5cr
Capacity **7 cr** per annum (+2cr)
Status | Acquisition notified, compensation payouts yet to begin
Infra | Cargo hub expansion, aerospace manufacturing hubs

Phase 3 | 2034 | Construction to start once passenger footfall touches 80% of 3 cr
Capacity **5 cr** per annum (+2cr)
Infra | Second terminal building

Area: 1,334 hectares

Entry gates **2**

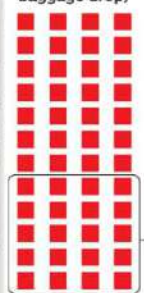

Immigration counters **9 each** at arrival and departure

Lounges **1** domestic and international each

CHECK-IN COUNTERS
48 (20 of them for self-baggage drop)

VIP and reserved lounges
1 each at departure, international and domestic arrivals

Boarding gates
10 domestic & 2 international, all with aerobridge connections

Baggage pickup carousels
2 domestic **1** international

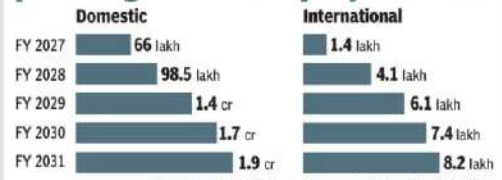

Aircraft stands
10 connected to terminal by aerobridge; **15** with bus

Runway peak flight handling capacity
30/hour

Multimodal cargo hub capacity
2.5 lakh metric tonnes annually, to be expanded up to **20 LMT**

What are Noida airport's passenger footfall projections?

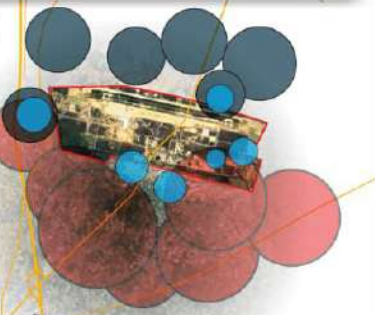

Source: AERA (All figures are projected and rounded off)

Where land will come from

Airport will eventually span **4,752** hectares. How land is being acquired

Phase 1
1,334 hectares from 6 villages

Phase 2
1,330 hectares across 6 villages

Phases 3 & 4
2,053 hectares across 14 villages
