

UP has seen transformation across sectors in 9 yrs: Yogi

'There Was No Vision For Devt Before 2017'

TIMES NEWS NETWORK

Lucknow: Chief minister Yogi Adityanath on Wednesday said Uttar Pradesh has witnessed a transformation across sectors over the past nine years, with agriculture, infrastructure, education and welfare seeing major gains.

FULL COVERAGE: P 4

Addressing a programme at Lok Bhavan in Lucknow to mark the completion of his govt's nine years, Yogi said that, "Govt's first decision was taken in the interest of farmers and UP is now the fastest-growing state in agricultural development in the country."

The CM released a booklet 'Nav Nirman Ke 9 Varsh', to

“Since 2017, the double-engine govt worked towards establishing security, infrastructure, investment, providing employment, farmer welfare, women empowerment and uplift of underprivileged. Significant progress has been made in governance by improving education & healthcare

highlight his govt's achievements in two successive terms.

UP's development, he said, was the result of the policies of BJP's double-engine govt. He thanked efforts of BJP workers, public representatives and support of the people.

"To understand this 9-year-long journey, it is important to know the condition of the state before 2017. Despite its immense potential, UP was

facing an identity crisis. It had some of the most fertile land and abundant water resources in the world, but its farmers were driven to distress. Artisans, known for their skills, were forced to migrate. Youth faced an identity crisis and unemployment. Nobody was safe, and there was no clear vision for development," the CM said.

Since 2017, he added, the double-engine govt worked to-

UP govt busted 'Noida jinx': CM

CM Yogi Adityanath said BJP govt in state uprooted the tag of "bad omen" stuck to Noida because of previous regimes, making UP emerge as an "excellent destination for investment". "Those who called our faith superstition stayed away from Noida, believing that they lose their power and seat. Such beliefs created artificial barriers to growth," he said. **P 4**

wards establishing security, infrastructure, investment, providing employment, farmer welfare, women empowerment and uplift of the underprivileged. Significant progress has been made in governance by improving education, healthcare, the environment and service sectors, and promoting the state's culture, faith and traditions.
