

This e-way will be UP's industrial lifeline: Nandi

TIMES NEWS NETWORK

Lucknow: Industrial develop-

ment minister Nand Gopal Gupta Nandi on Wednesday said inauguration of the Ganga express-

way marks a major milestone in the state's infrastructure-led growth and reinforces UP's emergence as the country's leading expressway state.

"UP now accounts for nearly 60% of India's total expressway network, underscoring the rapid pace of development achieved under PM Narendra Modi and CM Yogi Adityanath," Nandi said at the launch event.

Nandi said: "It would serve as state's industrial lifeline, connecting Prayagraj to the national capital region while significantly boosting investment, logistics and regional connectivity."
