Lucknow: In a boost to India's defence manufacturing initiatives and the UP Defence Industrial Corridor, renowned British arms manufacturer Webley & Scott has announced plans to establish a state-of-the-art ammunition manufacturing facility in the Lucknow node of the defence corridor.

According to company officials, the first phase of the project will involve an investment of nearly Rs 100 crore, which is proposed to be expanded to around Rs 300 crore over the next three years. The facility is expected to begin production by the end of 2027.

The facility is expected to begin production by the end of 2027

The plant is expected to become one of the country's largest ammunition manufacturing units and will produce a wide range of defence-grade cartridges and weapon-related materials for the armed forces, paramilitary forces and authorised security agencies.
