

‘Initiative reflected PM’s vision of making flying accessible to all’

► Continued from P 1

The farmers will thank the CM for the development initiatives undertaken in the region, and he is expected to interact with them during the visit. Jewar MLA Dhirendra Singh said the inaugural flight would symbolise the aspirations of North India and include not only landowners but also women and agricultural labourers who were displaced by the airport project, even if their land was not directly acquired. Calling it an “emotional and proud moment”, the MLA said the initiative reflected Prime Minister Narendra Modi’s vision of making air travel accessible to ordinary citizens. He also invited people to visit Jewar Airport and witness the sentiments and experiences of the farmers participating in the historic flight.
