Lucknow: Inviting global corporations and technology firms to “build the future in Uttar Pradesh”, chief minister Yogi Adityanath on Wednesday pitched the state as India’s next major hub for Global Capability Centres (GCCs), technology-led investments and advanced manufacturing, highlighting its skilled workforce, improving infrastructure and investor-friendly policies.

Speaking at the Uttar Pradesh Global Growth Dialogue 2026 in Bengaluru, Yogi said: “The state aims to facilitate 40 million square feet of Grade-A office space and establish 500

CM at Invest UP's programme in Bengaluru on Wednesday

GCC units by 2031.”

He added that UP offers one of the country’s most competitive business environments, backed by over 36 sector-specific policies, robust law and order, a large land bank, seamless single-window clearances and an extensive incentives framework. The pitch, in fact, appeared to have resonated with industry leaders, with UP securing investment commitments worth over Rs 50,000 crore through MoUs signed with 15 companies during the meet.
