A Rs 26,910 crore data centre and [artificial intelligence](#) infrastructure hub is set to come up in Jewar, [Uttar Pradesh](#), with the first phase planned at a capacity of 384 MW. Spread across 114 acres in Sector 28 of the [Yamuna Expressway Industrial Development Authority \(YEIDA\)](#) area, the project is expected to strengthen Uttar Pradesh's digital infrastructure push around the emerging Jewar–Greater Noida technology corridor.

The project will be developed by AM Group, which is planning the facility as part of a wider 1 GW high-performance computing and [AI infrastructure](#) hub targeted for full commissioning by 2030.

The initial capacity is expected to come online in 2028, according to AM Group's agreement with the Uttar Pradesh government. [Awanish Awasthi](#), adviser to Chief Minister [Yogi Adityanath](#) and former Uttar Pradesh chief secretary, said in a public post, "AM Group is set to develop a major [Data Center Hub](#) in Jewar, Sector 28, YEIDA."
