

Young innovators pitch startup solutions at UPRISE event

TIMES NEWS NETWORK

Lucknow: Young innovators showcased startup ideas aimed at solving real-world challenges in healthcare, employment and business at the UPRISE event held at a private university in Greater Noida on Wednesday, highlighting a growing shift from job-seeking to solution-building among the youth.

Participants presented their innovations before industry mentors, who evaluated their practicality, scalability and potential impact.

The top prize went to Iram Jahan, founder of REACT Hydrogel, for developing an antioxidant hydrogel designed to simplify wound treatment in animals by reducing dependence on multiple medicines and antibiotics.

The runner-up award was won by Falia and Tabish for 'Saathi', a platform that connects businesses with skilled professionals, helping

employers find suitable talent while creating better opportunities for job seekers.

University vice-chancellor Sibaram Khara said UP's youth are gaining new opportunities in innovation and entrepreneurship, which will play a key role in the state's future growth and employment generation.
