

IT policy push for state's \$1 trillion goal

TIMES NEWS NETWORK

Lucknow: The state's IT and electronics department on Wednesday held a meeting to assess the implementation of its investment and technology policies, with IT and electronics minister Sunil Kumar

Sharma directing officials to speed up projects, incentives and initiatives aimed at strengthening the sector's contribution to UP's \$ 1 trillion economy target.

Progress of the IT policy, electronics manufacturing policy, semiconductor policy,

data centre policy, startup policy and provisions related to global capability centres were reviewed.

The review focused on emerging sectors, including artificial intelligence, semiconductors, electronics manufacturing and data centres.
